Production Process

Be it mould making, casting, grinding, polishing, electroplating, and finally, testing and assembly, Jaquar has the complete manufacturing process under one roof in a fully integrated plant. The factory is also constantly online with the marketing team, and engages in demand forecasting, using market information plus trends to predict demand.

R&D

With a presence across 40+ countries, Jaquar is a firm believer in maintaining good quality and fine design. This requires a strong Research and Development (R&D) department. Jaquar has recently introduced an award-winning, cleverly concealed washbasin faucet and a soon-to-be-released state-of-the-art shower mixer that uses a customer's pre-fed data to prepare the temperature of bath water and the type of shower settings requested, beforehand.

Certifications

Jaquar's uses the most modern and advanced global technological processes. Its in-house R&D and testing laboratories comprehensively analyse each functional aspect of every product to ensure absolute quality. The result? Products that conform to not only the highest global standards, but are also capable of withstanding the rigours of tough usage conditions.
